**KPSRL Thematic Headline 2023: Towards Just Social Contracts**

Deepening three sub-themes of the social contract  
on a more operational level

The KPSRL community has voted to deepen conversations about social contracts started in 2022 with a focus on how to practically **operationalize** the concept this year and link it more directly to our SRoL themes. After reimagining what could be, 2023 will be dedicated to learning how Security & Rule of Law (SRoL) support can strengthen social contracts. To focus the new trajectory, the KPSRL Secretariat proposes three tracks to guide contributions from the KPSRL network.

- 1) Participatory and inclusive social contracts
- 2) Authoritarian social contracts and the security sector
- 3) Resilience to polarization
